PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions to Claimant/Operator: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five (5) acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR "3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended for submitted notices). A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form and submission to the appropriate BLM office.

<u>Claim Information</u>: (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), UMC Serial Number. List only the claims where the disturbance is proposed).

AL #1

UMC 279003

AL #2

UMC 279004

Location of Proposed Activity: (i.e. County, Township, Range, Section and Quarter Section)

Juab County, Township 12 South, Range 21/2 West, Section 25, Southwest Quarter

<u>Describe Pre-Existing Disturbances and Structures or Indicate on Maps or Sketches:</u> (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc....

It may be to your advantage to document existing disturbance with photographs.)

Approximately 1/2 acre of land is currently disturbed in the pit area. A 12 ft. wide road extends 3400 feet from the pit to an existing county road. Ash Grove will provide a survey map showing the disturbance and baseline elevations to provide for future volumetric study of material removed. Total current disturbance is 1½ acres.

Describe Access Routes: (Existing and proposed, for proposed road construction specify length and width in feet.)

Access will be provided by a pre-existing county road approximately 3.3 miles long, which intersects State Road 148 in Sec.13, T12S, R2W. This road has been extended 3400 feet to the mining pit and will be widened and improved to a 25 ft. haul road. Total disturbance due to the road will be 2 acres.

Proposed Operations: Describe the entire proposed operation, including the type of material being removed and all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.). List all mechanized earth moving equipment to be used during operation and state if any explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbance are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 Ac. = 43,560 sq.ft.).

The existing pit will be enlarged to a total of $1\frac{1}{2}$ acres. Material will be blasted and pushed up with a D7 CAT. A 3 yd. loader will load 25 ton haul trucks. Highwalls will not exceed 50 ft. and all trash will be removed from site. The total disturbed area for Ash Grove initiated roads and pit area will not exceed five (5) acres.

Date Operations are Proposed to Commence as Outlined in this Submittal - (Month, Day, Year):

November 9, 1992

Proposed Completion Date - Month, Day, Year):

December 31, 1992

<u>Proposed Reclamation</u>: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated. When reclamation has been completed, the Authorized Officer of the BLM shall be notified so that an inspection of the area can be made.

Ash Grove has submitted a Mining Plan to the BLM which provides for site reclamation, however Ash Grove anticipates continuing mining beyond this notice under a Mineral Materials Sales Contract which is currently being reviewed by the BLM. Ash Grove will establish a test plot now to help determine reclamation practices best suited for the area.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Notice to Claimants/Operators:

- 1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.
- 2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claim named herein.
- 3. Information and data submitted and specifically identified by the operator as containing trade secrets of confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.
- 4. Failure of an operator to file a notice under 3809.1-3 or a plan of operations under 3809.1-4 will be subject to the operator, at the discretion of the authorized office, to being served a notice of non-compliance or enjoined from the continuation of such operations by a court order until such time as a plan or notice is filed with the authorized officer.
